

Add images, GIFs, and videos to articles

Last Modified on 12/02/2016 1:37 pm EST

It's easy to add images, videos, and even GIFs to your articles. We even have a file library where you can store and manage all your files globally.

Add Images or GIFs

There are multiple ways to add images or GIFs to your articles.

1. Drag and drop images or gifs from your computer to the editor.
2. Insert an image or gif from your file library using **Add File / Image**.
3. Upload a new image or gif using **Add File / Image**.

WHO RUNS THE WORLD?

Add Videos

There are multiple ways to add videos to your articles.

1. Embed videos from third-party video hosting sites like YouTube, Wistia, or Vimeo in the HTML
 2. Embed videos from your file library using an HTML5 video player.
